Demo Presentation Instructions/Preparation

• Presentations in Monday, Dec 3 class period; worth a significant portion of grade
  • Order of teams is on the class schedule website
  • 8 mins max (points for getting the timing right!)
  • Laptop must work! Points deducted if it doesn’t, so test in advance (next Monday)
  • Will be recorded and shared with Prof. Bultan (CS189B)

• Outline (~1 slide each) – all members of team should speak
  • Introduce team and give team name and company
  • Introduce the problem
  • Overview and demo how you solve it: use pictures, demo recording OK
  • Provide some technical details, novelty and challenges (2 slides max)
  • Next steps (plan for what is left / CS189B)
Advice

• Practice, practice, practice, practice, practice, practice, practice, practice, practice, ...
  • Time yourselves to that you get as close to 8 minutes as possible without going over
• Test that your laptop works; have a backup laptop and usb w/presentation
• Live demo OK but record it also so that you have a fallback

• CS189A presentation is not anything like what your final presentation (CS189B) will be like. Different format, duration, level of preparation, purpose
  • Purpose: state clearly your problem/solution and innovation
    • As a hand off to Prof. Bultan; not open to the public
• CS189B – identify/implement advanced features, get feedback from users/others, extensively test (make it bulletproof!), public presentation & demo prep
