Background

- Executives found an issue with the process of buying and selling goods

- Three Main Components
  - Purchase orders, Sales orders, and Shipping invoices

- Matched to one another to move forward in the pipeline
I want to buy goods!
Let me input your purchase into my system... Here’s the receipt!
Now sending you the goods!
Great! Once I match my purchase order to your documents, I will pay!
The Problem

Too much manual input in the matching process!
The Side Effects

● Delay
  ○ Up to 24 hour wait time between confirmation emails

● Human Error
  ○ Mismatch errors due to manual data input

● Waste Money
  ○ Where Elementum saw an opportunity
Automate the Matching Process!
