

# Uber for Vendors

Frank Lee, Raul Pulido, Eric Shen,  
Edward Yuen, Wei-Yee Goh

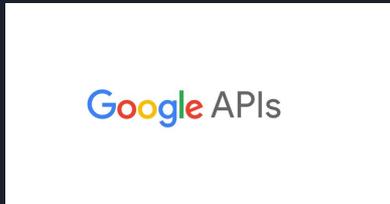

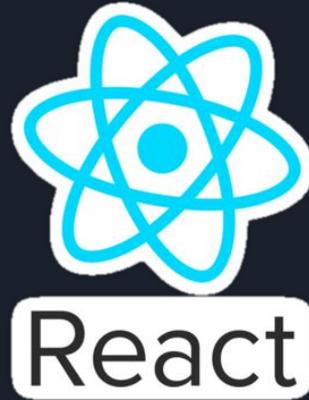

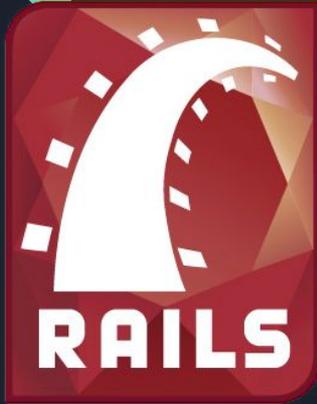

# Problem

- What is a vendors?
  - Vendors fix issues with properties
  - Examples include plumbers and electricians
- Renters need to coordinate with landlord and vendor
  - Tenant must explain the issue so the correct vendor can be picked
  - Landlord must approve of the vendor
  - Tenant and vendor must agree on a time
  - Scheduled time may not be optimal

Demo

# Tech Stack

## Next Steps

- Complete the job interaction sequence.
- Flush out associations on our database.
- Complete user specific landing pages.
- Add ratings for vendors and tenants.
- Look for a way to automate landlord's vendor decision.
