- Jasen Hall
- Lauren Hedberg
- Rachel Pham
- Yinon Rousso

Project: *Call Summarization*

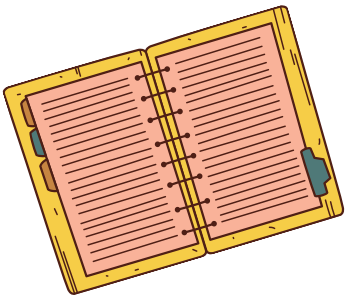

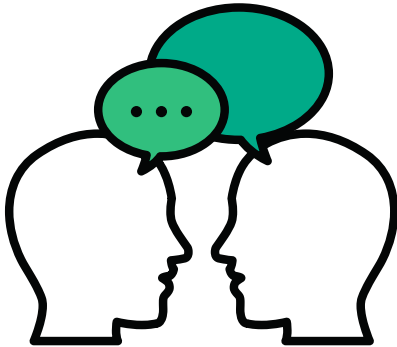

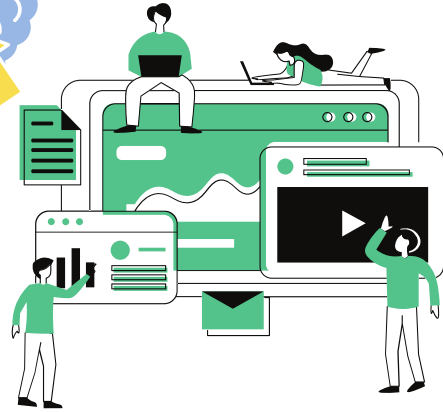

Invoca Capstone

#Koki's Kookies

The Problem

The Solution

Call Summarization Details

Web App Information!

- React JS frontend
- Node/Express JS backend
- MongoDB database

APIs:

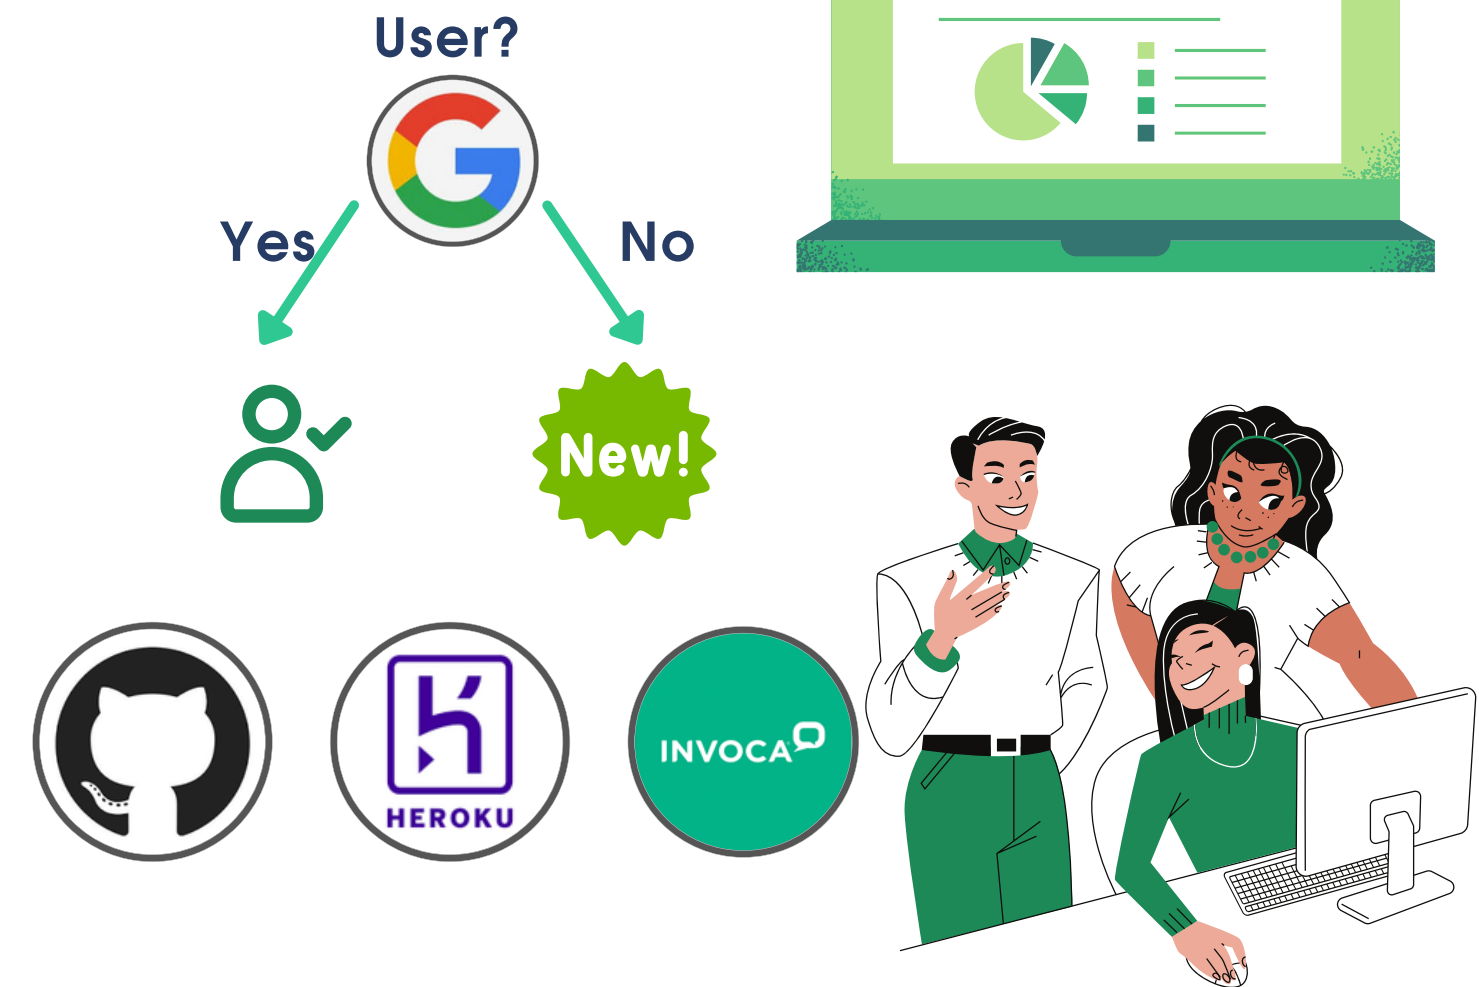

- Invoca 
- Ringpool
- Transactions
- Call

Call Summarization Challenges

INVOCA

- Communication
- CORS issue with AUTH-0 for login/register
- Integrating Invoca's API
- Setting up automatic testing/deployment

Call Summarization Next Steps!

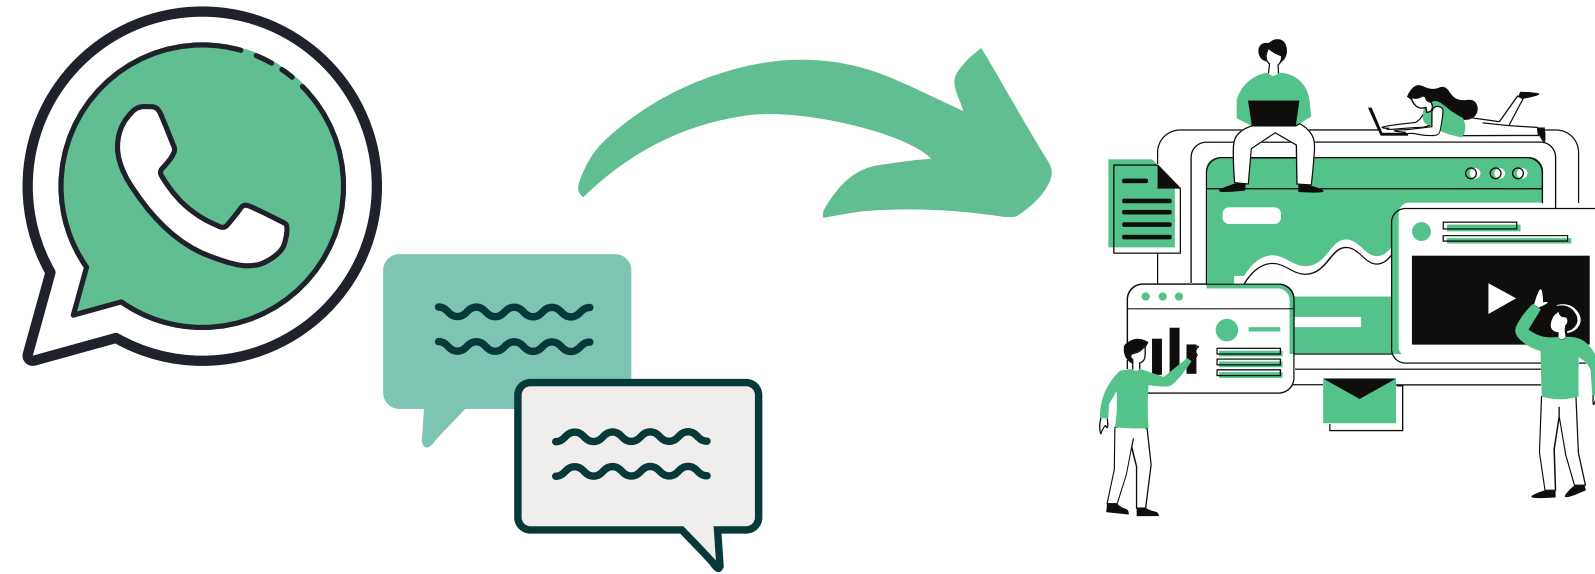

- Researching text summarization APIs
 - main effort!
- Implementing a feedback form to provide feedback on how the text summarization was
- Fine-tuning existing applications via edge case testing and deciding on methods of displaying information
